

No 01

● RARE

Chanterelle

Cantharellus cibarius

EDIBILITY	CAP Ø
✓ Edible	3-10 cm
HABITAT	SEASON
Oak & beech duff	Jul-Oct

Apricot-scented and gold — the forager's favourite handshake.

No 02

● UNCOMMON

Fly Agaric

Amanita muscaria

EDIBILITY	CAP Ø
△ Toxic	8-20 cm
HABITAT	SEASON
Birch & pine	Aug-Nov

Storybook red, storybook danger. Admire; don't taste.

No 03

● RARE

Morel

Morchella esculenta

EDIBILITY	CAP Ø
✓ Edible	3-8 cm
HABITAT	SEASON
Ash & elm, burns	Mar-May

A honeycomb on a stalk — spring's most hunted prize.

No 04

● UNCOMMON

Death Cap

Amanita phalloides

EDIBILITY	CAP Ø
▲ Deadly	5-15 cm
HABITAT	SEASON
Oak woodland	Aug-Nov

Half a cap can end you. Learn this one first.

No 05

● UNCOMMON

Lion's Mane

Hericium erinaceus

EDIBILITY	CAP Ø
✓ Edible	8-25 cm
HABITAT	SEASON
Hardwood wounds	Aug-Nov

A frozen white waterfall. Tastes faintly of crab.

No 06

● COMMON

Turkey Tail

Trametes versicolor

EDIBILITY	CAP Ø
+ Medicinal	4-10 cm
HABITAT	SEASON
Dead hardwood	All year

Banded like its namesake; steeped for centuries as tea.
